

Worn Down, Out of Heart

Georgia Lady, Worn-out and Tired, Tells How She Was Helped by Ziron Iron Tonic.

THE personal experience of Mrs. Nannie Phillips, of Powder Springs, Ga., is printed below in her own words:

"I was in a worn-out condition. My stomach was out of order. I didn't sleep well. I was tired all the time. I couldn't half eat, and didn't rest well at night.

"I would get out of heart and blue. I would feel like I was going to be down in bed. Yet I kept dragging around.

"We heard of Ziron, and from what I read, I was sure it wouldn't hurt me. If it didn't help me. But after taking it, I found it really helped me, and I sent back for more. I ate better, felt much stronger. I am sure Ziron is a splendid tonic."

Many people, who are worn down and disheartened, due to stomach disorders and nervous ills, find relief by toning up their blood with Ziron Iron Tonic. Tell your druggist you want to try Ziron on our money-back guarantee.

Prof. J. H. Forbis was elected chairman for the coming year and Prof. M. L. Cozins for secretary. Prof. Forbis made a strong talk on discipline in the schools and its importance and his talk was, itself, worth a day's attendance at the meeting. The regular meetings will be held the third Saturday in each month at 10 a. m. and every teacher in the county is urged to attend.

Who is said to be the genuine boll weevil has been found in many fields in the fifteenth district in numbers sufficient to have ruined many acres of cotton and reduced its yield to a fraction of what it promised. John Gately, druggist several specimens of the weevil to town last week and men who claim to be familiar with the real boll weevil saw it and declared it the genuine article. This is the first outbreak of the weevil in this county except along the extreme southern border, and there is little telling the danger it may mean to cotton growing in the years to come.

Several cases of Hemorrhagic Septicemia have been discovered the past week by Dr. Gilman in cattle in herds just east of town. A few months ago there were several cases around town and in several other parts of the county and every animal known to have had the disease died promptly except in one herd in town where the animals received prompt treatment by inoculation as a curative and as a preventive. The inoculation was entirely successful in those cases and the conclusion would be that safety lies in the treatment of every suspicious case as soon as it appears, followed by inoculation of the entire herd.

Constable J. C. Kelly of Oakland captured a wild cat still in the Warren vicinity Tuesday of this week, but got neither operator nor product of the plant. He found a quantity of brew in ferment for making drinks but it was not ready for distilling. Officers have known for some days of the presence of the distillery in that vicinity and it appears that Sheriff Ross was waiting an opportune time to get a still, operator and proof at one haul, when Constable Kelly flushed the still and the operator got away. Officers say that white liquor has been going its rounds of more than one section of the county recently, and rum has it that two gallons brought to town one night last week and hidden was found by others than the owners and was taken by the finders.
